PROFILE SUMMARY

Software Development Engineer with hands-on experience building modern web applications using Next.js, React.js, TypeScript, Tailwind CSS, and Redux Toolkit. Experienced in developing scalable UI components, integrating REST APIs, implementing authentication with Ory Kratos, customizing Medusa-based e-commerce solutions, and working with Payload CMS and Go backend services. Strong foundation in frontend architecture, responsive design, debugging, and collaborative Agile development.

SKILLS

Core Technologies: Next.js, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
Frontend Frameworks & Styling: Tailwind CSS, Bootstrap
State Management: Redux Toolkit
Backend & APIs: REST APIs, Go, WebSockets
Databases: MySQL, MongoDB
Platforms & Services: Payload CMS, Ory Kratos, Medusa
Development Tools: Git, GitHub, Bitbucket, Jira, Docker, Postman, Visual Studio Code
AI-Assisted Development: OpenAI (ChatGPT, Codex), Antigravity
Programming Languages: C, Python

WORK EXPERIENCE

Software Development Engineer I | Cerebronix (Neosys Ventures LLP) **July 2025 – July 2026**

- Developed and maintained scalable web applications using **Next.js, React.js, TypeScript, Tailwind CSS, Redux Toolkit, Go, and REST APIs**.
- Developed and enhanced **Go-based backend services**, implementing REST APIs, authentication-related functionality, business logic, and API request/response structures.
- Customized the **Medusa e-commerce platform** through plugin development, backend enhancements, Admin UI customization, and multi-store functionality.
- Implemented **authentication and authorization using Ory Kratos** and integrated Meta (Facebook) OAuth, along with **WhatsApp Template Builder, internationalization (i18n), and guided product tours**.
- Developed **CMS-driven pages and real-time communication features** using Payload CMS and WebSockets, integrating **Chatwoot, Chatscope Chat UI Kit, and Lobehub**, and developed a standalone chat application for direct customer-client communication.
- Improved application performance through **client-side caching, state management, and API optimization**, while working in Docker-based environments and collaborating through Git, Bitbucket, Jira, and Postman in an Agile development environment.

UI Developer Intern | Cerebronix (Neosys Ventures LLP) **Mar 2025 – June 2025**

- Developed **responsive web interfaces** using Next.js, React.js, TypeScript, HTML5, CSS3, and Tailwind CSS, following reusable and component-based development practices.
- Implemented frontend features including **REST API integration, Redux Toolkit state management, dynamic routing, and reusable UI components**.
- Developed **real-time chat interfaces using WebSockets**, integrated Chatwoot, and implemented frontend authentication flows using **Ory Kratos**.
- Collaborated with senior developers on **feature development, debugging, code reviews, and application enhancements**, working in Agile development workflows using Git, Bitbucket, Jira, Docker, and Postman.

Teaching Faculty | CSC Computer Education **April 2024 - Feb 2025**

- Delivered **theory and hands-on practical sessions** for school and college students through the HDCA program, strengthening practical programming and web development skills.
- Trained students in **C, C++, Python, HTML5, CSS3, MySQL, Windows, Microsoft Office, JavaScript, Bootstrap, React.js, and MongoDB**, and guided them through coding assignments, mini-projects, and web development projects.
- **Continuously expanded frontend and software development expertise through self-learning and practical application**, including gaining hands-on experience with Git version control and frontend technologies while building a foundation for a transition into software development.
- **Received positive feedback for delivering engaging, practical, and student-focused learning experiences**, while supporting school and college students in programming and web development.

Executive Tutor | Focus Edumatics Pvt Ltd **Jan 2022 - Mar 2023**

- Delivered **high-quality, error-free Mathematics tutoring sessions** tailored to students' understanding levels while consistently meeting **performance KPI goals**.
- Addressed **session challenges** with guidance from team leads and maintained high standards of **teaching quality**.
- Guided co-workers in conducting **quality sessions**, accurate report preparation, and **trained new joiners** on session procedures and best practices.
- Achieved **KPI targets consistently** while demonstrating excellent **attendance, productivity, and effective time management**.

ACADEMIC QUALIFICATIONS

Bachelor of Engineering (Electronics and Communication Engineering) **Jun 2017 - May 2021**

KIT- KalaignarKarunanidhi Institute of Technology

CGPA: 7.7

CERTIFICATION

Honours Diploma in Computer Application (HDCA) **July 2023 - July 2024**

CSC Computer Education
